

Continuing Education Contact Hours

A Continuing Education Contact Hours certificate can be requested for 11.75 hours. It can be submitted to SD DOE by anyone who does not wish to earn graduate credit. The South Dakota Statewide Geospatial Conference does not keep track of contact hours – it is up to each individual to keep track of their own hours and submit them to DOE. To learn more about continuing education contact hours, please refer to South Dakota Department of Education's [website](#).
