

HOLL Lessons

The HOLL (Hands-On Learning Lab) is a training resource provided and developed by Esri Training Services. The lab is an excellent way to introduce ArcGIS® software users to a variety of Esri solutions and training opportunities while learning to use Esri software.

No advanced registration is required.

The HOLL consists of a group of laptops with headphones where students can work through lessons at their own pace. A lesson consists of a recorded presentation followed by a hands-on exercise. Each lesson typically takes from about 45 minutes to one hour to complete, and students can generally come and go as they please.

HOLL Lessons Include:

1. Getting Started with GIS
2. Learning the Fundamentals of ArcMap
3. Getting Started with ArcGIS Pro
4. Storing Data in the Geodatabase
5. Constructing Points from Address Data
6. Importing CAD Data
7. Spatial Reference and Data Alignment
8. Editing GIS Data
9. Multi-user Editing Using Versioning
10. Maintaining Land Records Using Parcel Fabric
11. Modeling Transportation Networks
12. Performing Image Classification
13. Finding the Best Location
14. Examining Patterns in Your Data
15. Displaying Data in 3D
16. Creating Maps for Presentation
17. Sharing GIS Content Using ArcGIS Online
18. Generating Custom Web Applications
19. Telling Your Story with Story Maps
20. Performing Analysis with Model Builder
21. Using Tasks in ArcGIS Pro
22. Automating Workflows Using Python
23. Using Business Analyst Web
24. Getting started with ArcGIS Earth
